LACOMBE, WEDNESDAY, SEPTEMBER 8, 1909

ONE DOLLAR A YEAR

The Best in Plows

Everything points to a long plowing season this Fall, and we are prepared to help you out at the supply end.

The Jewel Gang (28 in. size) has no peer in its class. Strong Frame, Malleable Standards, Horse Lift, and the Mould Boards with just the right curve to do the most efficient work.

Price, with 4 Horse eveners..... **\$86.00**

The Beaver Gang (24 in. size), is a lighter plow than the Jewel, and is handled easily with three horses. It is a hand lift plow, but its turning qualities are perfect.

Price, with 3 Horse eveners and steel standards..... **\$67.00**

Sulky Plows—J. G. C. and Domino—both leaders

14 inch Walking Plow with fin cutter **\$21.00**

16 " " " " " **23.00**

18 " " " " " **25.00**

Of Local Interest

Walter McDougall, aged fourteen, brother of Le McDougall of the Lacombe Dairy, was thrown from his pony on Saturday evening and seriously injured. While herding the cattle the pony took fright and bolted, throwing him off and kicking him. The left collar bone was broken and one hand badly injured. Luckily he escaped fatal injury, and Dr. Hynes reports him resting comfortably.

Messrs. Wilson & Russell, of the Lacombe Produce Co., are hard at work fixing up their premises, the Urquhart store on Barnett Ave. East. Storage rooms for butter and eggs, dressed beef and pork, poultry, etc. are being built and the firm are already doing business. They offer the highest price for anything in their line, and handle everything in the line of farm produce.

F. F. Higgs, of the Calgary Furniture Store, returned to Calgary on Monday after a sojourn at Gull Lake. He is greatly struck with the beauties of our resort and predicts that it will be very popular with Calgarians in future seasons.

There will be a sale of milch cows and driving horses at the Lacombe Farmers Exchange on Saturday next at 2 o'clock. Some first class stock will be put up. The auctioneer, H. Thornton Bolt, will receive further entries up to date of sale.

Wm. Hart, north of town, had a man arrested on Sunday last for using insulting language to his wife. The case came up before Magistrate McKenty on Monday and the prisoner was fined.

Will Lundy was on Wednesday fined \$5 and costs for recklessly driving his auto on the public highway. He killed a couple of Turkeys belonging to P. M. Balentine.

Chas. Bootner, whose serious accident was noted in last issue, is getting along well towards recovery. John Maurer is also reported out of danger.

The Ladies Aid of the Presbyterian Church will hold a tea at the home of Mrs. Spies on Friday Sept. 10th from three till five.

Chas. Mooney left on Monday for Carstairs, where he has accepted a position with The McDermid Drug Co.

If you want a Malleable steel or cast range see—Morrison & Johnston.

F. E. McLEOD

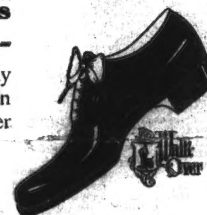

Successor to The W. E. LORD Co.

Competition to-day demands keen close buying, to sell right we must buy right, to buy right we have to watch the markets and keep posted every day. We have to know values and be in a position to avail ourselves of all cash discounts. We can't afford to have a big stock of goods carried over from season to season, it costs money and "some one" has to pay for it. For years we have studied the markets with every available means, we have visited the markets regularly and we buy for Cash, thereby placing ourselves in the best possible position to give unequalled values. We practice with all a square deal—IT PAYS. **We want your business.**

The SHOE That Gives - Foot Comfort -

NEWS OF THE TOWN.

L. Overton returned this week from a trip to the Seattle Exhibition.

W. S. Mooney left Saturday evening for Manitoba, and will be absent about two days.

The infant daughter of Mr. and Mrs. G. H. Hutton died on Wednesday.

Labor Day was not celebrated in Lacombe, August 31st having been taken instead.

We have a good milk cow and two mares with colts to sell or trade. Brown & Brown.

We have a lot of hog fencing, also a four wire fence to sell, at a bargain, or will trade for a horse or cattle. Brown & Brown.

The prize lists for our exhibition will be in the hands of the secretary this week and will be mailed to all farmers in the district.

Judge Lees held court here on Thursday last. While a large number of cases had been set down for trial, it was found when court opened that the majority of them had been settled.

We want a correspondent in every school district in this vicinity. Send in your correspondence and we will send you a supply of stationery and stamped addressed envelopes.

The Liberal Convention for the purpose of selecting a candidate to contest the Strathcona constituency, will be held at Wetaskiwin, on Thursday, Sept. 30th. Douglas, of Strathcona, is looked on as a winner.

At a special sitting of the district court held at Red Deer Tuesday, before Judge Lees, Reginald Bruce, of Lamerton, pleaded guilty to twenty charges of forgery, and was sentenced to five years on each charge, same to run concurrently.

A number of residents of this district who have not been taking The Western Globe are receiving copies this week. We have taken their names from the subscription list of The Advertiser. If they wish to receive The Western Globe regularly they should send in their names at once, otherwise they will receive no more copies of this great moral enlightener. The price is \$1.00 per year in advance.

Mistah Kelly, the Afro-American decorator of pedal extromities at the O.K. Barber Shop, expressed his indignation at our not mentioning his recent litigation. He thinks that when a man pays a fine of \$5 and costs he should get recognition from the press. Kelly paid his fine all right, but says it is overalls for him for the rest of the year. He is now taking a course of Moodle and Sankey.

The body of Anton Waldrich, the Bohemian who murdered his wife on their homestead near Stettin on July 1st, was on Thursday found in an old well a few miles from the scene of his crime. Since the murder the police have been on the look out for him, and it is evident that immediately the awful deed was committed the murderer drowned himself. The murder was the result of drink. Waldrich having just returned from a protracted spree at Stettin.

The other evening we heard one of the most successful farmers of the district remark that there was not enough fall plowing done in this country. "An enterprising farmer," said he, will move his stocks of grain if necessary in order to get his plowing done. It is perhaps true that a great many of our farmers have been careless in this matter. Our springs are very uncertain and happy indeed must be the man whose land is all in good shape in the fall. There has been a good deal of excuse for the farmers, however. Threshing and drawing grain to market over long distances, has taken too much time. Notes and accounts coming due in the early autumn have forced farmers to market grain when they should have been plowing. But whatever conditions have been in the past we hope that the fall of 1909 will see the land plowed. The harvest is sufficiently early this year to permit every man getting his work done. Good fortune is attending this district and every farmer should take full advantage of all increased opportunity. As we heard one express it "plow early and often."

Our line of heating stoves for hand and foot coal, or wood. Morrison & Johnston.

Ask to see Pollock's automatic wrench. Just the thing around the farm. Morrison & Johnston.

Sale at the Farmers Exchange on Saturday last was well attended and good prices realized for everything offered.

Dr. Simpson leaves for Benin on Thursday to attend the session of the Medical Council. He will probably be away three days.

Wm. Burris returned yesterday from his trip to the States, and is feeling like a colt again. He reports a good time, although he is glad to be back in busy Lacombe again.

Why not have a race when you can get it on 30 days trial. Try the Carbo Magnificat at Morrison & Johnston.

Lord Strathcona passed through Lacombe on Monday on special train. He received a most enthusiastic welcome to Strathcona and Edmonton.

The Chinese hash manufacturer at the Victoria Hotel was up before Magistrate McKenney and McNicol on Tuesday on a charge of committing an indecent act. The case occupied the court's attention for several hours, and resulted in the acquittal of the defendant. Roy Clark Murphy held after the defendant's interests.

The corn crop of Michigan has been ruined by frost in the word received from the frozen east. 90 degrees above on the same date in Alberta.

The following letter has been received from J. L. Doupe: "I have been so busy since leaving Lacombe that I have not had an opportunity of thanking you on behalf of the Land Department which I now wish to do, for the attention paid to the party of American editors, who with myself last week visited Lacombe and territory. The gentlemen after leaving Lacombe expressed themselves as highly pleased with your kindness and interest with the possibilities of Lacombe and surrounding country."

J. J. Gregory has received a letter from G. L. Gregson, Secretary of the Blackfalds creamery, in which he speaks very highly of the fine condition in which the cream supplied from Lacombe is received at the creamery. He wishes Mr. Gregory to endeavor to secure more patrons from around here. In forwarding Mr. Gregory's letter to The Western Globe, Mr. Gregory says: "The conditions upon which we worked so hard to prevent has now obtained. Butter locally has gone down to 15 cents a pound and even less, while the lowest price reached at the government creamery at Blackfalds during the month of June (considered to be the month of lowest prices) was 17 1/2 per pound, with a fair prospect of considerably more at the end of the season." Mr. Gregory considers that the shipping of cream from the railway station is as convenient as delivering at the creamery, and the cost is low. Mr. Gregory would like to see more of the farmers of the district, in their own interests, ship cream to the Blackfalds creamery, as an increased supply means lower cost of production.

PEARY REACHES THE POLE.

New York, Sept. 6.—Peary has succeeded. "Stars and Stripes" nailed to North Pole. From out the Arctic darkness there was flashed this message which stunned the Scientific world and thrilled the heart of every layman. From the bleak coast of Labrador Peary gave to the world the news that he had attained his goal in the far North while at the same moment in far off Denmark Dr. Frederick A. Cook of Brooklyn was being dinied and lionized by the Royalty for the same achievement. The first word of Peary's success reached New York at 12 o'clock this p. m. in a despatch to the Associated Press. It contained the bare announcement of his finding the Pole. Almost simultaneously he had transmitted the news to London, repeating dramatically and simply "Stars and Stripes nailed to the North Pole."

Electric Light Proposition.

The ratemakers of Lacombe will be called upon on Sept. 10th to vote on a debenture bylaw to raise the sum of \$25,000 with which to purchase and put in running order the Blindman River electric power works. At the present time The Western Globe is not prepared to say anything for or against the proposition. Up to date we have not had a report from any competent engineer on the question, and until such a report is forthcoming we will not venture an opinion. It is the town engineer's services of a competent engineer, and his report after thoroughly examining the plant is favorable to the town, there is no doubt that the people will be ready to give the necessary assent to the bylaw. As the matter now stands the ratemakers would be very foolish to vote the money. The council should within the next few days secure some reliable engineer to go over the plant and report to a public meeting of the ratemakers. The council should also prepare a statement of the probable revenue from the plant, so that the citizens may know just what they are voting for or against. The report of an engineer who is preparing plans and specifications for and also tendering on the work is not apt to be taken seriously by the ratemakers.

The talk of an engineer guaranteeing the dam to stand five years, without putting up a cash guarantee in addition, is not business-like. If a competent engineer makes a report on what is necessary to put the dam in order, and the work is done according to his orders, no guarantee should be necessary.

Conn. Mobley Gives His Opinion.

In order that the ratemakers may fully understand the electric light proposition, I would state that the council has entered into an agreement with The Blindman Electric Power Co. to take over their entire plant for the sum of \$15,000, and are asking for an additional sum of \$10,000 to repair the dam and put in a steam auxiliary and do all necessary work to put the plant in first class running order. We have had the assistance of expert hydraulic and electrical engineers, and have entered into arrangements whereby we can guarantee to turn this plant over to the town with a five years guarantee on the waterpower, with a thirty foot head water-tight dam; with a first class steam auxiliary plant of 125 indicated h. p., with the necessary buildings; auxiliary set up and connected with the town generator, and running, all guaranteed to be put up in accordance with a steam test of 120 lbs. by government boiler inspector for the sum of \$5,000 dollars.

This proposition, as laid before the people for their ratification is not based on guess work, as the council has gone thoroughly into the matter, and have done everything in their power to get the light proposition in a shape that we believe to be a paying proposition and one that any business man could safely invest in.

The actual cost of the plant of the Blindman Co. proposes to turn over to the town, according to their books, is \$47,000. The actual value of the 100 acres of land, power house and dwelling, hydraulic machinery, two dynamos, transmission line, town circuit and fixtures, with town light meters, and transformers is \$26,574. The labor on dam, such as we are purchasing this plant at about 80 cents on the dollar actual value. The labor on the Gull Lake reservoir as an assistant to the waterpower, \$2,000, is of some value; this money was expended in dredging the outlet and damming the same. Now if the ratemakers see fit to ratify our proposition by passing the necessary \$25,000 debenture, I have no hesitation in saying they will never get a better deal, as for a fact we are purchasing this plant at about 80 cents on the dollar actual value.

I do not wish to induce any person to vote for or against the purchase of the plant, but I believe every property owner should look to his own individual interest, and I firmly believe the plant will be a valuable asset to the town if the people will do their part by giving a reasonable patronage. I may say they have it in their own hands to materially reduce the cost of light by giving this a hearty support and patronage if the bylaw passes. I expect and believe the plant will be in running order by Nov. 1st. I may further state that the auxiliary, with small extra expense will add 500 per cent to the efficiency of our fire protection. Hoping all persons interested will give this matter due consideration and vote accordingly. G. G. MOBLEY.

M. W. A. Picnic.

The M. W. A. picnic, held at Brownlow's Landing, Monday, under the auspices of the Reading, Lacombe, Blackfalds and Rimbey Camps, was all that could be expected. A perfect day for a picnic, a good crowd assembled and after the arrival of the steamer the Gull from Wetaskiwin with the Lacombe crowd and visitors, lunch was spread on the tables and every one partook heartily of the good things passed their way. Well, talk about the man at the end of the table not being in a good place to get what he wants to eat. Brown sat there and took let prize, although Bailey, sitting up the table a little farther, ran him a close second.

At last this hard grind was over, and our Const. C. F. Dameron, introduced Wm. R. Grant of Calgary, Provincial Deputy Head Constable for the Province of Alberta, who gave us a nice talk, telling of the magnitude of the Order, and explaining the many benefits, citing actual cases of special fraternal benefits, performed by individual camps.

Then a programme of sports was arranged and pulled off with the following winners:

Pipe race, 1st C. F. Dameron, 2nd Claude Wright. Standing broad jump, 1st Jas. McPherson, 2nd Claude Wright. Running broad jump, 1st Jas. McPherson, 2nd W. Johnston.

Three-legged race, 1st Evans & Wright, 2nd Dameron & McPherson. Running race, 1st James McPherson, 2nd W. Johnston.

Tug of war, 1st Blackfalds Camp, 2nd Rimbey Camp.

Swimming, Race, 1st W. T. Evans, honorable mention, R. T. Patstone.

The steamboat made several trips out with parties, and after the sports were over, loaded with the many visitors, pulled back to the south end, and the rest washed their various ways home. A dance at the McPherson Hall in the evening, keeping over many from Blackfalds and Rimbey, completed a successful day of amusements.

Judicial Sale of Town Dwelling House Property.

PURSUANT to the judgment and final order for sale, there will be sold by public auction with the approval of the Judge of the Supreme Court of Alberta, by H. Thornton Bolt, Auctioneer, on the property, at 3:00 p. m., on Saturday the second day of October, A. D. 1909, the following lands and premises, namely:

Lots three (3) and four (4) in block two (2) in the Town of Lacombe, in the Province of Alberta, as shown upon a map or plan of record in the Land Titles Office for the North Alberta Land Registration District as Plan "T".

On the property is situated a frame dwelling house, size 25 feet by 30 feet, in good repair; a frame stable size 14 feet by 18 feet, and coal shed size 10 feet by 10 feet, both in good repair, all the buildings being situated on lots three (3), lot four (4) being used as a Tennis Court.

The property is situated on Alberta Street in the first block north of Barnes Street.

The property will be offered for sale subject to a reserve bid, which has been fixed by a Judge.

The terms of payment are as follows:

Ten per cent to be paid to the Vendor's solicitors at the time of the sale, the balance to be paid in full to the credit of the cause within 60 days after the date of the sale without interest.

In all other respects the terms and conditions of sale will be the standing conditions of the Supreme Court of Alberta.

Further particulars can be had from Messrs. Boyle & Parlee, Solicitors, Edmonton, Alberta.

Dated at Edmonton, in the Province of Alberta, this 3rd day of September, A. D. 1909.

(sgd) Alex Taylor, C. S. C.

HE ADVISES AGAINST HASTY DELIVERIES.

Robert McElgin, Regina, Miller,
Says Key to Wheat Situation
is Held by Farmer
and not by Speculator.

Terrell, Sept. 1.—Mr. Robert McElgin, president and managing director of the Lake of the Woods Milling company, in a recent interview advised the farmer generally to "hold out his wheat as he would produce and make the best of it." The interview attracted wide attention in the country because it presented an authoritative view of the wheat situation at the present time. The main thought of the interview was that the farmer should not rush his product to market but should wait until the situation was breaking the price. He did not intend to convey the meaning that the farmer should hold their grain permanently. He did not advise the Ontario farmer to hold his wheat. What he did say was, as the farmer held the key to the position and future value depended on how the farmer would deliver, he would advise the Ontario and Manitoba farmers to deliver moderately under present conditions, which is the best of advice.

Referring to the probable outcome of the Manitoba situation, Mr. McElgin said, "Mr. McElgin is strongly of the opinion it will not exceed 100,000,000 bushels. Mr. McElgin is satisfied that there are two causes which have a depressing effect on the market value to the farmer; the exaggerated reports given out in regard to the outcome of the western wheat crop, and the farmer himself rushing his wheat in immense volume as soon as it is threatened to the elevators and accepting the price (whatever it may be) during the very extraordinary deliveries. "If the large deliveries continue daily at elevator the market will not stand up against them," said Mr. McElgin, "therefore, the farmer ought to be careful not to rush his wheat in immense volume to market after harvest, as I believe, he will realize better results if deliveries are not excessive."

He also mentioned that he was of the opinion the best investment a farmer could make was to have a granary on his premises and deliver his wheat by so means "at a rush." This business of endeavoring to have his wheat all delivered and sold before the close of navigation, Mr. McElgin thinks, is a mistake. The prosperity of Canada depends on the prosperity of the farmer, and Mr. McElgin says he would like to see the farmer realize the very outside of the market could afford.

That accomplished gentleman who has been selling the farmer's wheat before it is harvested, and making the price for him, Mr. McElgin hopes, will be taught a lesson. "The best element of the world over has been forcing the market down by short selling. They are selling the wheat and the products thereof before the farmer has the crop harvested. If the farmer delivers the short seller is enabled to fill his contract. However, the producer has the power—it is he who will regulate the price. The farmer holds the key to the position, and he should make both the short seller of wheat and the short seller of wheat products pay as dearly as possible."

Mr. McElgin further hopes that the time is near at hand when present conditions on this continent will be discontinued. Reference is made, of course, to the grain market.

"Are you a believer in government ownership of elevators?" was asked.

"No, quite the contrary. I am a strong believer that the railway companies should have elevators at interior points to accommodate the farmer and store his wheat when he delivers it and to preserve the identity of each farmer's wheat, and then ship the wheat from the interior to the terminals. This process would do away with loading on cars, and prevent a great deal of confusion which has in the past taken place."

D. Cameron, tiller, has secured the Lacombe agency for the Snowflake Steam Laundry, Edmonton. For terms see Mr. Cameron.

Then and Now in the Canadian West.

Lord Strathcona must have a number of thoughts running through his fertile brain when he undertakes to contrast the past in Canada's West with the present.

Over seventy years is a long time for a man to look back, but Strathcona is in a position to do it and to remember a certain Scotch lad of eighteen years who left the head of the headwater to seek a future in the wilds of Canada at that time.

It is over seventy years since that event took place and the lad is now an aged man, but in the years that have intervened the man and the country have grown. The man today is looked upon as the greatest of the pioneers of the West and has been honored by King and people to a greater extent than any of his contemporaries of the early days.

Nearly sixty years ago he was transferred from the Lathrop coast to Rupert's Land and in that time he has been a maker of history. Forty years ago he was instrumental in the transfer of the Hudson's Bay interest in the lands of the Northwest to Canada, and was a strong personal factor in stamping out the first Red rebellion.

Later he sat in the parliament of Canada for Western constituencies, and was chiefly instrumental in the construction of the C. P. R. at a time when grit and gumption had to bring a lot of assistance to limited capital. The failure to carry through the enterprise would have brought disaster to Donald Smith and his associates, the success that came to the scheme will give their names to live in the history of their adopted country.

Lord Strathcona will be in Calgary at about two week, and it is definitely settled that he will be the guest of the city and will have something to say to the people at the Canadian club luncheon which will be held.

Travelling Teachers.

Professor Shaw made a suggestion worth considering when at the Canadian Club luncheon at Lethbridge a few days ago, he recommended that the government have men travelling through the districts giving the farmers advice on what to do and how to do it.

There are many farmers who would benefit a great deal and in turn the country would derive the benefit, if such a course were adopted. If some men would come along to a farmer and show him how to go after weeds so as to eradicate them, or explain to him the crops he should grow to obtain certain results, especially with regard to the tilling of the soil, or show him how to keep his stock so as to make fresh air and the carry over take the place of a certain extent of hay and oats, or give him pointers on a hundred and one things that are not taught in the schools or written up in books, there would be a great difference in the farmer and farmer of the country. Many a farmer through ignorance wastes a great deal of hard honest labor and good money. Many a farmer has an abundance of knowledge but does not know how to put it to practical effect. Many a farmer is experimenting on things that other men have settled years ago, and if some one who knows would tell him of the results he would save his trouble and expense.

Few middle-aged farmers have the opportunity to take even a short course at an agricultural college and the time they have to devote to books is limited, and moreover, many have not learned how to take knowledge in books for their own use. They do not have many chances to visit the experimental farms, although they learn a good deal in the few hours they do spend there. But to have a man come around and show them things on their own farms explaining to them the solutions of many of their own problems, would be a great benefit to those who are willing to learn and profit.

No changes for advertisements will be received by this paper at the noon on Monday.

Cigars, tobacco, pipes, cigars, and all smokers' supplies, at The Athletic Cigar Store—F. No. 10.

SLIPSHOD FARMING RUINING THE WEST.

Prof. Shaw Sounds a Warning
to the Farmers of the
West.

Prof. Shaw, of St. Paul, who visited Lacombe last month with the party of American editors, has the following to say of what he considers a suicidal policy on the part of the farmers of Western Canada:

"What you must do in Western Canada is to raise more live stock. When you are doing what you ought to do in this regard, the land which is now selling for \$20.00 per acre will be worth from \$50.00 to \$100.00 per acre. It is as good land as that which is selling for more than \$100 in the corn belt. As an illustration of the number of cattle you have at the present time in the Canadian west, I may say you have one cattle head to 100 acres, one ewine to 480 acres and one sheep to 1,064 acres."

"The system of farming which is being practiced in the country is simply indefensible. What I see in Canada is a large number of agriculturists growing one crop year after year and selling it without the slightest apparent thought of the impoverishment of the land. If the farmers of the west had to buy back in fertilizers what they took out of the soil in 1908, in wheat alone, it would cost them \$50,000,000. If you include all the crops of that year, it would amount to almost \$100,000,000."

"In Rivers I was told that all the straw grown there this summer would be burned this fall. This I call simply criminal. I also saw farmers in the west burning manure. All out straw has at least one-half the value of good hay. Yet it is burned. And this is a country perfectly adapted to the raising of cattle."

"I would sooner raise cattle in western Canada than in the corn belt of the United States. You can get your food cheaper and the climate is better for the purpose. We have a better market, but your market will improve faster than you farmers will produce the supplies. Winter wheat can be grown in one-half of the country through which I have passed, and alfalfa and one of the varieties of clover in three-fourths of it. The farmers do not believe this, but it is true."

"You cannot speak too strongly with reference to the grave mistake of impoverishing the soil of this country. It is a privilege to be alive and lift up one's voice against it."

Red Deer News.

Rev. B. Goodfield, pastor of the Baptist church, has accepted a call to Quilich, Ont., where he will take up his work the first of October in the large church of that city. He will preach three weeks longer in Red Deer. Mr. Goodfield is a strong, forceful, and very able speaker, and has made a host of friends who will regret very much his removal from town.

Petitions have been signed by farmers in Sylvan Lake, Bokville, and Lethbridge, asking the government for a phone system from Red Deer. The post office authorities are also considering a mail line direct over this route we understand.

Mrs. Isabelle Roche, mother of Mr. M. L. Roche, died at Red Deer on Tuesday morning last week in her 85th year, from a general breaking up of the system. She was a Nova Scotian by birth, and several of her children are in Alberta. The funeral took place on Thursday, Rev. W. G. Brown officiating.

The Girl I Love.

Andrew McPhoe's big tent show, with a well balanced company, presenting up-to-date melodramas, opened their first performance in Regina yesterday, and played to a crowded house. This is McPhoe's annual tour, and the people of the west are always satisfied that his shows are the best of their kind and without a tinge of vulgarity. The bill last night was "The Girl I Love," a thrilling melodrama in four acts. The story was that of the true love and self-sacrifice of heroic manhood and the just deserts that came to a deep dyed villain. The parts brought forth the emotional and realistic side of

life, and each actor and actress was an artist in their execution of the story of love. The special favorites were Miss La Tona Downie and Loris Randall, while the hero won the hearts of the audience and received liberal applause. The specialties were the best and vaudeville of the best type was presented between the acts. Some excellent juggling by a king in that line, and an acrobatic stunt of exceptional nature delighted the crowded tent and altogether the show was one of the best for the money witnessed in the west.—Regina Leader.

This company will exhibit at Lacombe, Friday, Sept. 10. Adults 50c, children 25c.

Short Butter Supply.

Dairymen, who are wise enough to have some cows milking this fall and winter, will receive some fat checks from the creamery. Good butter in the refrigerators will be as good as cash and from the present outlook very handsome returns will be realized. Stocks of butter in eastern Canada and United States were only 34,000,000 pounds on July 1 against 38,500,000 pounds on the same date a year ago. Unless this store receives a great increase during this month there is sure to be a shortage with resulting high prices. When the price for butter that ruled last winter are considered, it is certain that top prices will be received this year, and the farmer who has milking cows during the winter will reap the benefit.

The first reports of the fire in the warehouse of the McClary Mfg. Co. of Winnipeg, exaggerated the damage done to the building and stock. The fire will not affect the company's trade at all. Arrangements were made immediately for temporary office and warehouse space. All papers in the office were saved intact, and four cars of mixed goods, ranges, canned ware, hardware, etc., will be received daily so that orders from the trade will be shipped as promptly as heretofore. The company will take care of business as if no fire had occurred. Early Monday morning after the fire the firm started building again, and they expect to be in the new place in a very short time. The McClary Co. had finished shipping a large proportion of their fall orders before the fire occurred, and had seven cars of goods on the way from the London factory. These goods will be now unloaded in the temporary premises and shipments of new orders made immediately.

The attention of the license branch has recently been drawn to the fact of Indians becoming intoxicated as a result of drinking older. Mr. Deyl, Provincial License Inspector said: "Several samples of the 'older' have been analyzed in various parts of the province and found to contain from 9 to 10 per cent of proof spirits. It would appear that the older was sold by wholesalers to retail vendors as refined older and non-intoxicating. Investigation has shown that the retailers have been selling the liquor innocently. A reasonable opportunity will be given the wholesalers to remove any older which contains more than 2 1/2 per cent proof spirits and a careful watch will be kept to see that they do it. If they fail to do so they will be prosecuted." A reasonable chance should have been given York Tuxy who was fined \$50 and costs last week for selling older to Indians. If this case was taken before the proper authorities York would probably get his money back.

A Pike County farmer solved the sheep killing dog problem in a successful way. After he had lost thirty sheep he built in the pasture a square pen of logs, and roofed it, but left a big hole in which he suspended a part of a sheep. Nearly every morning when he went to the pen he found one or more dogs in there, which he quietly put out of business. In the course of the winter he caught forty dogs and didn't lose any more sheep. Moreover, he kept on good terms with his neighbors which is a hard thing to do if you shoot their dogs and go around bragging about it.

ESTRAY.

Black yearling heifer, no brand, white spot on belly. Owner will please call at yards of Lacombe Brick Tile and Cement Co., pay expense and remove animal.

School Days

Are rapidly approaching. Call early and make your choice of the necessary stationery and school requisites, copy & exercise books, slates, pencils. During the last month or more we have persistently advertised as special, our new arrival of **Men's Suits** and we still keep at it, for a good thing cannot be overdone. We are selling them, too, which proves our confidence in the Values. For **Style, Tailoring, Price** they are the best **Suit Values** ever offered in Lacombe. **Look them Over**

Fall Underwear

is now in Demand and Ready. **"Stanfield's For Ever"** is the cry of those who know. But we have also other kinds. **Medium Weights - Heavy Weights**
Light Colors - Dark Colors
And All Prices

We are more than busy preparing for The Biggest Fall Business

we ever did. Our Basement and Upper Floor are chock-a-block with the best values the markets could supply in

Fall and Winter Goods

And in a few days our Tables on the Main Floor will be loaded with display of them. The Quantity appals us—we must be

Busy till Christmastide

But as we examine **THE VALUES** we are not afraid. **THE GOODS WILL SELL.** All we have to do is to get you in to see them. We may try to advertise them, but the goods speak for themselves **BETTER** than we can.

AMONG The BEST VALUES Are Our BLANKETS

When they were bought, woollen goods were at their lowest in 20 years. They have advanced very sharply in price since, but we never miss giving our

Customers an Advantage

and we now can give them one in every variety, size, weight and color of Blankets.

SEE OUR BLANKETS

Ladies' & Misses Coats and Dress Skirts and Suits

are being checked and priced with feverish haste for they will sell quickly.

THE VALUES are distinctively attractive to the shrewd buyer.

Dress Skirts at **\$6.25**

look like \$11.00 values.

We can no more than **Indicate** what will be doing in this section very soon.

A Few Days more, and we will be ready to show the Full Range. We are

Enthusiastic for we anticipate your approval and your business.

Linoleums

We have again a gathering of **REMNANTS**

in our Linoleum section, and those who can use odd lengths to advantage, can make an

Economy Purchase

by being in time to secure it. They will sell quickly.

Millinery Opening Wednesday, SEPT. 15

The Opening of this Department and its conduct is in the hands of Miss ROSS, who is sent to us by one of the leading houses in the trade, and who cordially invites the ladies of Lacombe and surrounding district to **VISIT HER EXHIBITION OF MILLINERY**, which is Specially arranged for on our Upper Floor.

Flannelettes

By the time our country customers can respond to this advertisement we will

Have Opened Up a splendid new assortment of Flannelettes. They will be **Specially Priced** to give you pleasure in the buying of them.

Our Durable Brand of Ladies' & Children's Hosiery

at **25c. and 30c.** per pair will prove a most satisfactory purchase, true to their name for

Fall Wear

Our other lines will also merit attention when **you are in town**

Demonstration TUXEDO GOODS

Tuesday, SEPTEMBER 14

The manufacturers of this brand of goods are sending us a lady demonstrator to bring before you in a practical form the high quality of their goods.

Their Coffee will be served and their other products will be featured for just one week, beginning 14th September.

Our PRIZE Competition

for Advertising Suggestions will close on Saturday first 11th September

Many interesting letters have been received, but we hope to receive many more before the closing day. It is your

IDEAS

we are after, and however crudely expressed, they may be valuable, **so send them to us.**

CAMPBELL & TITSWORTH

Fall and Winter Goods are being opened up Daily

Every effort is being made to have our new stock complete and in place this week. We are persuaded our Range and Assortment surpasses anything before shown. Every department has been considered individually and THE BEST MARKETS sought to Enable US TO GIVE THE BEST VALUE POSSIBLE.

Dress Goods

In exclusive suit lengths

We are not behind this season. Our purchases have been larger, consequently the assortment will be more varied. You will find we have some of the most "Chic" goods on the market.

Gent's Clothing

For High Class, Finely Tailored Nobby Styles, the 20th Century goods are pre-eminently the best in Canada. Our new stock of standard sizes has arrived. For those wishing special measurements we can offer a selection of the dressiest goods desirable.

LADIES' FALL COATS

Our assortment is equal to many shown in the city stores. Decidedly the prices are better.

The styles are correct in every respect and up to the demands of the present fashion.

Make a -Point-

Of Seeing Our Ladies' FUR COLLAR COAT

exceptionally heavy Beaver, all colors. Full 56 inches long lined throughout. Musk Rat or Isabella Coon Collar.

IT SELLS AT A GLANCE.

Dress Goods

By the yard

Some of our values are surprising. In this line we intend making a leader of our 60c. goods. Our values last season were more than appreciated. This season they will be exactly the same in every feature. A 60 inch fine Wool Panama, the kind that wears.

60c. per yard

Men's Fall Overcoats

Styles in Men's Garments do not vary to the same extent that Ladies' do, but there are little features we can point out to you that just make the distinction between one season and another, and it is that which a well dressed man looks for.

ALIX NEWS.

Oscar Towler, after submitting to a painful operation on one of his eyes, has returned to his home. The operation was successful.

The United Farmers of Alberta met in Todd's Hall on Friday, the 27th, U.I.T., to hear an address from E. J. Froom, the Provincial Secretary, but he was unavoidably detained. In his absence some matters of importance to farmers were discussed.

Mrs. Kilbourn, Ontario, recently visited her brother, John R. Mackie.

The Union Bank is now a permanent institution in our midst. It opened business on Wednesday morning under the charge of Mr. Hopkirk with Mr. Crow, assistant.

W. F. Puffer, M. P. P., visited Alix on Wednesday last.

A threshing machine was unshipped at C. P. R. depot on Monday last for Gus Scholtz, Manfred. He intends to operate it there this fall.

E. Bashaw accompanied by G. H. Darlow recently went to and returned from Camrose by automobile in 12 hours. They report a most enjoyable trip.

Two engines, one a 10 horse power Stuckey gasoline, and the other a five horse power, were sold by the Alix Implement Co. this week.

H. C. Lincoln, formerly of Ponoka, opened the Alberta Pacific Elevator on Wednesday. He intends moving his wife here shortly, but he has difficulty in finding a suitable house.

Mrs. G. W. Green has been appointed by the W. C. T. U. to represent them at a meeting to be held at Medicine Hat on the first week of October.

The threshing machine is now busy in our midst. Farmers have every reason to be satisfied at the result.

A shipment of 12,000 pounds of butter was made by one firm last week. This indicates the extent and productiveness of the surrounding country.

J. G. and Mrs. Fellows are this week receiving congratulations on the birth of a daughter.

Mrs. Bruce, Edmonton, is visiting her sister, Mrs. Beck.

LAKESIDE NEWS

Rev. J. C. Anderson, who has charge of this appointment for the ensuing year, promises to be very popular, both as a minister and pastor. The Sunday School has been re-organized with D. Peers as superintendent.

Mrs. C. McIntosh and sons, Andrew and Willie, have returned from the East, and are being warmly welcomed by her many friends.

The school has been decidedly improved, having been sided and painted during vacation, and harmonizes more than formerly with the appearance of the flourishing district to which it belongs.

J. Porter and T. Henderson may now be reached by telephone, having had the phone put in their respective homes.

H. Metcalf's many friends and well wishers are pleased to hear that he is recovering from his recent indisposition.

Miss Mabel Bowers, and Miss Eva Mitchell, Lacombe, have been visiting among relatives.

Motoring has lost its popularity with some at least of the residents, who could not be induced to take a "spin" again.

H. Switzer, who has lately come West, and is teaching the Canyon school, spent the week end with friends here.

A. Urquhart & Co. vs. the C. P. R.

For the third time this interesting case has been up before the courts on Friday last week, and for the third time A. Urquhart & Co. have won. Their claim was for some \$311.00 on account of freight on three cases of potatoes shipped to Vancouver, and District Judge Lees decided in their favor with costs. In the first instance Judge Noel allowed Urquhart & Co.'s claim in the matter of one case only. The C. P. R. Co. appealed, and the Court of Appeal consisting of six judges, including Judges Tilton, Beak, Harvey and Stewart found in favor of Urquhart & Co. for the 3 cases, resulting the case back to the District Court for assessment of the amount with the result stated. We understand the C. P. R. are again appealing the case, and where and when it will end the Lord only knows.

BENTLEY NEWS.

The trustees of the Bentley M. E. Church have about decided to build this season, and are having plans and estimates prepared.

Mr. C. F. Damron has applied for an auctioneer's license, and will cry sales in any part of the province. Satisfaction guaranteed.

J. H. Morrison and Hudson Hunt are taking a drive through the country east of Stettler, expecting to improve their location. We hope they will see their mistake before making the exchange.

Capt. Thorp could not withstand his desertion of the lake and sailing craft. He has fallen back into his old ways of noting a sailing breeze, and is spending his spare hours at the lake again, fixing rigging and sail, etc., but the wind is never ready when Thorp is. He asked Ted Zoluf out for a sail the other night. Zoluf came home tired from rowing Thorp around the lake, and next trip Thorp had to hunt a new mate.

Born to Mr. and Mrs. W. M. McPherson, Thursday, Sept. 2nd, a son.

Prairie Fires.

To the Editor.
Dear Sir:—The season for prairie fires is now here, and ranchers among your readers are no doubt very anxious on account of their liability to loss in this way.

It may interest them to know that it has been found that in many cases broken bottles have something to do with the origin of these fires. Smoke has been noticed rising from the prairie, and it has been proved that no one could possibly, through intention or carelessness, have started the fire, and enquiry discovered broken pieces of glass bottles, through which the rays of the sun were concentrated on the dry grass.

Yours truly,
OLD TIMER.

Furniture! Our stock of furniture is always complete so we for anything in that line—Moffins & Johnson.

October 25th, Monday, has been appointed as Thanksgiving Day, by an order in council passed last week.

Bylaw No. 14 C.

A Bylaw of the Municipality of the Town of Lacombe in the Province of Alberta to provide for the raising by way of debenture of the sum of \$25,000.00 to be expended in purchasing the Electric Light and Power plant of The Blindman River Electric Power Company Limited, and in placing the said plant in a proper and efficient condition of working repair.

Whereas the Municipal Council of the Town of Lacombe in the Province of Alberta considers it expedient to establish a system of electric lighting for the said Municipality as a municipal work under the powers conferred on it by the Consolidated Ordinances of the North-West Territories 1908, Chapter 70, Section 95, and all other Ordinances or Statutes applicable to the aforesaid purpose now having the force of law in the said Province of Alberta.

And whereas the total amount of the existing debt of the said Municipality outside the debt due for current expenses of the year 1909 is \$90,448.07 of which no part is in arrears.

And whereas it is desirable that this enactment come into force and take effect on the first day of October A. D. 1909, and that the whole of the obligations to be issued for the repayment of the aforesaid debt of twenty-five thousand (\$25,000) dollars be dated as of the day on which this said enactment takes effect, as aforesaid.

Now therefore the Municipal Council of the Town of Lacombe in the Province of Alberta in open council assembled enacts as follows, that is to say:

1. That it shall and may be lawful for the Mayor and Secretary-Treasurer of the Municipality of the Town of Lacombe in the Province of Alberta and they are hereby duly authorized and empowered to borrow on behalf of the said Municipality the sum of twenty-five thousand (\$25,000) dollars and to issue a debenture of the said Municipality for the said sum so proposed to be borrowed, as aforesaid, of which the sum of fifteen thousand (\$15,000) dollars shall be appropriated for the purpose of paying the purchase price of the Electric Light and Power plant of The Blindman River Electric Power Company Limited, including all real estate (whether within or without the said Municipality), transmission lines, machinery, tools, supplies and material of all kinds, water rights, privileges, rights of way and all else connected with or in any way appertaining to the said plant, at and for the price or sum of fifteen thousand (\$15,000) dollars.

And whereas the aforesaid plant is out of repair and insufficient to meet the reasonable and proper requirements of the said Municipality and the residents therein, and it is therefore necessary to expend an additional sum of ten thousand (\$10,000) dollars for the purpose of placing the said plant in a satisfactory condition of efficiency and repair, making in all the sum of twenty-five thousand (\$25,000) dollars which sum the aforesaid Council proposes to borrow for the purposes above set forth.

And whereas it is desirable that the said proposed indebtedness of

twenty-five thousand (\$25,000) dollars be made repayable during the period of twenty-five years from the date upon which this enactment takes effect and bear interest at the rate of five per centum (5%) per annum, and that the said principal sum along with interest thereon at the rate aforesaid be repayable in twenty-five equal aggregate yearly instalments during the currency of the aforesaid period of twenty-five years.

And whereas the amount of the whole rateable property in the said Municipality according to the last revised assessment roll thereof is \$895,715.00.

And whereas the total amount of the existing debt of the said Municipality outside the debt due for current expenses of the year 1909 is \$90,448.07 of which no part is in arrears.

And whereas it is desirable that this enactment come into force and take effect on the first day of October A. D. 1909, and that the whole of the obligations to be issued for the repayment of the aforesaid debt of twenty-five thousand (\$25,000) dollars be dated as of the day on which this said enactment takes effect, as aforesaid.

Now therefore the Municipal Council of the Town of Lacombe in the Province of Alberta in open council assembled enacts as follows, that is to say:

1. That it shall and may be lawful for the Mayor and Secretary-Treasurer of the Municipality of the Town of Lacombe in the Province of Alberta and they are hereby duly authorized and empowered to borrow on behalf of the said Municipality the sum of twenty-five thousand (\$25,000) dollars and to issue a debenture of the said Municipality for the said sum so proposed to be borrowed, as aforesaid, of which the sum of fifteen thousand (\$15,000) dollars shall be appropriated for the purpose of paying the purchase price of the Electric Light and Power plant of The Blindman River Electric Power Company Limited, including all real estate (whether within or without the said Municipality), transmission lines, machinery, tools, supplies and material of all kinds, water rights, privileges, rights of way and all else connected with or in any way appertaining to the said plant, at and for the price or sum of fifteen thousand (\$15,000) dollars.

And whereas the aforesaid plant is out of repair and insufficient to meet the reasonable and proper requirements of the said Municipality and the residents therein, and it is therefore necessary to expend an additional sum of ten thousand (\$10,000) dollars for the purpose of placing the said plant in a satisfactory condition of efficiency and repair, making in all the sum of twenty-five thousand (\$25,000) dollars which sum the aforesaid Council proposes to borrow for the purposes above set forth.

And whereas it is desirable that this enactment come into force and take effect on the first day of October A. D. 1909, and that the whole of the obligations to be issued for the repayment of the aforesaid debt of twenty-five thousand (\$25,000) dollars be dated as of the day on which this said enactment takes effect, as aforesaid.

Now therefore the Municipal Council of the Town of Lacombe in the Province of Alberta in open council assembled enacts as follows, that is to say:

1. That it shall and may be lawful for the Mayor and Secretary-Treasurer of the Municipality of the Town of Lacombe in the Province of Alberta and they are hereby duly authorized and empowered to borrow on behalf of the said Municipality the sum of twenty-five thousand (\$25,000) dollars and to issue a debenture of the said Municipality for the said sum so proposed to be borrowed, as aforesaid, of which the sum of fifteen thousand (\$15,000) dollars shall be appropriated for the purpose of paying the purchase price of the Electric Light and Power plant of The Blindman River Electric Power Company Limited, including all real estate (whether within or without the said Municipality), transmission lines, machinery, tools, supplies and material of all kinds, water rights, privileges, rights of way and all else connected with or in any way appertaining to the said plant, at and for the price or sum of fifteen thousand (\$15,000) dollars.

And whereas the aforesaid plant is out of repair and insufficient to meet the reasonable and proper requirements of the said Municipality and the residents therein, and it is therefore necessary to expend an additional sum of ten thousand (\$10,000) dollars for the purpose of placing the said plant in a satisfactory condition of efficiency and repair, making in all the sum of twenty-five thousand (\$25,000) dollars which sum the aforesaid Council proposes to borrow for the purposes above set forth.

And whereas it is desirable that the said proposed indebtedness of

twenty-five thousand (\$25,000) dollars be made repayable during the period of twenty-five years from the date upon which this enactment takes effect and bear interest at the rate of five per centum (5%) per annum, and that the said principal sum along with interest thereon at the rate aforesaid be repayable in twenty-five equal aggregate yearly instalments during the currency of the aforesaid period of twenty-five years.

And whereas the amount of the whole rateable property in the said Municipality according to the last revised assessment roll thereof is \$895,715.00.

And whereas the total amount of the existing debt of the said Municipality outside the debt due for current expenses of the year 1909 is \$90,448.07 of which no part is in arrears.

And whereas it is desirable that this enactment come into force and take effect on the first day of October A. D. 1909, and that the whole of the obligations to be issued for the repayment of the aforesaid debt of twenty-five thousand (\$25,000) dollars be dated as of the day on which this said enactment takes effect, as aforesaid.

Now therefore the Municipal Council of the Town of Lacombe in the Province of Alberta in open council assembled enacts as follows, that is to say:

1. That it shall and may be lawful for the Mayor and Secretary-Treasurer of the Municipality of the Town of Lacombe in the Province of Alberta and they are hereby duly authorized and empowered to borrow on behalf of the said Municipality the sum of twenty-five thousand (\$25,000) dollars and to issue a debenture of the said Municipality for the said sum so proposed to be borrowed, as aforesaid, of which the sum of fifteen thousand (\$15,000) dollars shall be appropriated for the purpose of paying the purchase price of the Electric Light and Power plant of The Blindman River Electric Power Company Limited, including all real estate (whether within or without the said Municipality), transmission lines, machinery, tools, supplies and material of all kinds, water rights, privileges, rights of way and all else connected with or in any way appertaining to the said plant, at and for the price or sum of fifteen thousand (\$15,000) dollars.

And whereas the aforesaid plant is out of repair and insufficient to meet the reasonable and proper requirements of the said Municipality and the residents therein, and it is therefore necessary to expend an additional sum of ten thousand (\$10,000) dollars for the purpose of placing the said plant in a satisfactory condition of efficiency and repair, making in all the sum of twenty-five thousand (\$25,000) dollars which sum the aforesaid Council proposes to borrow for the purposes above set forth.
